

UJJWAL YADAV

B.Tech, Computer Science & Engineering | Entry-Level Software / Android Developer

Dehradun, Uttarakhand | +91-8182071710 | uky014601@gmail.com | github.com/Ujjwal-gkp

PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in Python, Java, Android development, Firebase, web technologies, and DBMS. Developed a QR token scanning and generation solution and a library management web application. Seeking an entry-level software, Android, or web development opportunity to apply programming and problem-solving skills while continuing to grow professionally.

TECHNICAL SKILLS

Programming: Python, Java, Kotlin

Android Development: Android Studio, XML, Firebase Realtime Database

Web Development: HTML, CSS, JavaScript, PHP, jQuery

Database: DBMS

Tools / Platforms: GitHub

PROJECTS

QR Token Scanner & Generator | Android Studio, Java, Firebase, Python

- Developed a customized QR token scanner application for an institute using Android Studio and Java.
- Implemented Firebase Realtime Database integration for application data handling.
- Developed a Python-based QR token generator to support the token workflow.

Library Management Web Application | HTML, CSS, JavaScript, PHP, jQuery, DBMS

- Developed a simple library management web application as an academic/project initiative.
- Applied front-end web technologies and database concepts to build the application.
- Project is available on GitHub.

EDUCATION

Qualification	Institution / Board	Year	Result
B.Tech, Computer Science & Engineering	GRD IMT, Dehradun	Expected 2027	Pursuing
10+2 (Science)	CBSE Board, Uttar Pradesh	2022	61%
10th	CBSE Board, Uttar Pradesh	2020	56%

CERTIFICATION / ADDITIONAL TRAINING

- Advanced Diploma in Computer Applications (ADCA), Uma Technical Institute

SOFT SKILLS

Adaptability | Communication | Collaboration | Problem Solving | Willingness to Learn | Goal Orientation

LANGUAGES

English, Hindi
